Welcome to the La Tierra Trails

The La Tierra Trail system offers 25+ miles of hiker, biker, and equestrian trails, plus designated technical parks for BMX, mountain bikes, and ATV/MX. With an elevation range of 350 vertical feet over the 1,500 acre area, the La Tierra Trails are designated as easy to moderate hiking trails and easy to moderate biking trails, all within three miles of the Santa Fe Plaza.

Multi-Use trails are generally wider trails with less abrupt grade changes, while Hiker-Biker trails are mostly narrower, single-track trails. Some trails within the system are identified as 'technical trails' with features or steeper grades.

Route suggestions include:

A Short Hike (2.0 miles)

Park at the Calababas Trailhead off Camino de los Montoyas. Start at junction **1** proceed to **2 6 7** and return to **1**
