## KEEPING SANTA FE BEAUTIFUL IN 2025

Welcome to the City of Santa Fe Environmental Services Calendar! The 2025 edition is packed full of important information for you, helping you be a recycling role model, live a more sustainable lifestyle, protect our environment and to Keep Santa Fe Beautiful.

In this calendar you will find information and tips for recycling right, how to set out your carts properly and about free disposal days at the Buckman Road Recycling and Transfer Station (BuRRT) and the Caja Del Rio landfill.

Did you know that recycling collected from Santa Fe homes and businesses is sorted right here at the BuRRT? Both people and machinery sort materials to be sent to markets in New Mexico and beyond, to be made into new packaging and products.

Learn where to properly dispose of chemicals, as they can mix in your cart and combust, catching the trash inside on fire! The City has begun charging a \$60 fee for damages caused by negligence. You will not be charged for damage caused by normal use or collection activity, but if you put hot ashes or smoldering fireworks in your cart and it melts you will pay the replacement fee.

The Santa Fe Solid Waste Management Agency (SFSWMA) has scheduled the FREE residential trash disposal days to coincide with the two city-wide cleanup days sponsored by Keep Santa Fe Beautiful in April and September.

This calendar also highlights when residential collection schedules change due to observed holidays. Download the Recycle Coach ([www.recyclecoach.com](http://www.recyclecoach.com)) or where you get your favorite apps, to learn how to be a better recycler and get notifications for upcoming schedule changes.

We hope you find this calendar a useful tool throughout the year. Your ESD Team wishes you Happy Recycling in 2025!

Cut out this page for easy reference.

<p>WHEN IN DOUBT THROW IT OUT. As much as we might want everything to be recyclable, many things are not. In fact, making too many mistakes can cause even good materials to go to landfills. So instead of wish-cycling, make sure every common recyclable such as metal cans, plastic bottles, plastic jugs, clean cardboard, and clean paper gets recycled.
