Subject: District 2 Question - Emergency Management

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Emergency Management is an essential program. It is currently understaffed, under resourced, and underfunded.

The city EOC is obsolete, when it rains hard or hail it is so loud in the EOC you can't hold a conversation. OEM's equipment storage is the janitor's closet and trailers stored across town.

It's my understanding, Rod Gould, Sr. Advisor to Mayor Webber redirected funding earmarked for hostile vehicle barriers to protect public events to the purchase of a fixed generator for the EOC, which is one of the buildings on Midtown earmarked for demolition in the near future. I believe this was a misguided action that provides little to improve the safety of the city.

Are you willing to commit to credibly improving the city's emergency management program?

Hello Geralyn,

Here are questions for tomorrow's forum:

1. Please talk specifically about what constitutes affordable housing in our city. What is an affordable rent for an apartment or a house in Santa Fe? What about the purchase of a home? And also what subsidized housing options are available in Santa Fe and how do these work?
2. Please discuss issues and solutions around current and future vehicle, bicycle and pedestrian traffic at the intersections of St. Francis Drive/Zia Road/Galisteo Road.
3. Zoning? Where do you stand? Is it acceptable, for example, to re-zone so that that R-29 zoning for a huge project is approved immediately adjacent to a neighborhood zoned R3-5?

Thank you.

Margaret Marshall

Subject: District 2 Question - Safety and Risk Management

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

The city has a legal and moral obligation to ensure employees and visitors have a safe and healthy environment. The Webber administration abdicated this solemn responsibility to the point the program is virtually non-existent. Indeed, the former Health and Safety Officer and the former Risk Manager both have lawsuits against the city.

Are you willing to commit to making Safety and Risk Management a high priority and establishing a state of the art program?

Many residential streets and sidewalks in the South Capital are literally falling apart.

I don't think these streets (with the exception of Galisteo and Don Gaspar) have ever been repaved since this neighborhood was developed in the 1920s and 1930s. They continue to be patched and repatched.

The intersection of West Buena Vista and Old Santa Fe Trail is a perfect example. The asphalt is crumbling and full of potholes. West Houghton, between Don Cubero and Galisteo, is falling apart. There are many more examples.

Regarding sidewalks, they are City property, and the property owner is responsible for repairing/replacing them. Why is this not enforced??? They are tripping hazards and potential lawsuits for both the City and the property owner. The enforcement officers just let these violations go.

Please - if the City has ordinances, then enforce them - don't waste residents' tax money on ridiculous "studies" to skirt around actually having to fix the City's infrastructure.

Thank you,

M. Kay

QUESTIONS FOR CANDIDATE FORUM 1/17/26

Considering the stand taken by Philadelphia Mayor who said:

"Let me be clear: If any law enforcement agent, any ICE agent, is going to come to Philly to commit crimes, then you can get the F out of here," Krasner said. "Because if you do that here, I will charge you with those crimes. You will be arrested. You will stand trial. You will be convicted."

What resolution would you support here in Santa Fe to keep ICE in check ?

How could the police be instructed to protect the people of Santa Fe from violence by Federal Agents?

Do you support the arrest of those who commit violence against our neighbors in our community?

Thank you,
Diane

For the district 2 candidate forum scheduled for 1/17/2026, I submit the following question:
What help would you provide to a constituent who complained that city building inspectors determined a fence did not violate code height restrictions, when inspectors admit they never took any measurements or other factual data, and when facts show by measurement that the fence violates code height restrictions?

RG Wakeland, constituent

Questions for the Candidates:

- 1)** With less snow pack, large new apartment complexes, new data centers in our state and the possibility of the Federal government deciding the fate of the Rio Grande, what is the best plan for sustainable water in Santa Fe?
- 2)** Most new housing is built by developers that only have a small fraction of their build "affordable" and make a profit on the rest. We all see the number of apartment buildings going up. Why can't we be building all affordable single family homes instead? Home ownership is an investment in New Mexicans & corporate apartment buildings is an investment for the owner.

1. What are your priorities for the City and District 2 ?
2. What proposals do you have for increasing housing stock in Santa Fe, both affordable and workforce!
3. What is your proposal for addressing the homeless issue?
4. How do you propose to help the Mayor and Public Works develop a plan for improving streets and medians?
5. How do you propose to identify and fund parks and trails in our district?
6. Will you aggressively demand that the City financial systems be fixed so accurate budget figures are available?
7. Will you demand that the LAND USE CODE REVISIONS and the GENERAL PLAN be prioritized for completion ASAP?

Currently, Santa Fe's Short-Term Rental Ordinance allows 1000 existing residences in residential neighborhoods to be converted into full-time overnight lodging businesses. Do you believe that this is the most beneficial use of our existing homes and existing infrastructure in light our housing shortage? What changes to the STR ordinance would you support?

As you may know the city approved an extremely controversial development on nearly 10 acres of land on Old Pecos Trail and allowed up zoning to accommodate the out of area developer wanted, disregarding previous city resolutions designed to protect this section of the historic scenic corridor. What will you do to protect the Old Pecos Trail scenic corridor from being destroyed by up zoning without appropriate city oversight?

Thank you,

Hi Geralyn: Below are some questions for the District 2 City Council Candidates:

- 1) Are you For or Against the demolition of the 4 casitas on Don Gaspar Ave labeled as 'historically contributing' to District 2 in order to build more State offices next to the State Capitol?
- 2) What is your position on preservation of history and historic buildings in Santa Fe?
- 3) What improvements would you like to see in Santa Fe regarding Public Safety?
- 4) What do you believe is the # need of your district?
- 5) What committees would you like to serve on?

Regards,
Kathy Rivera

What is the candidate going to do for the AFSCME Union Workers of the City of Santa Fe?

Louise DeMella
