

CITY OF SANTA FE, NEW MEXICO

RESOLUTION NO. 2025-__

INTRODUCED BY:

Councilor Jamie Cassutt

Councilor Carol Romero-Wirth

A RESOLUTION

**SUPPORTING THE NEW MEXICO FOOD CHARTER’S REPORT CARD FOR 2023-2024
PRIORITIES AND IDENTIFYING PRIORITY FOOD POLICIES.**

WHEREAS, New Mexico has a vibrant food and farming culture that is significant to its rural, urban, and tribal economies and that provides employment opportunities in retail, wholesale, and direct markets, in food processing and distribution, on farms and in value-added businesses; and

WHEREAS, the food and farming culture, and its economic impact, contributes to the health and well-being of New Mexicans; and

WHEREAS, food, farm, and hunger initiatives across New Mexico increase healthy food access and food security for all residents, provide for farm and food job opportunities, and expand sustainable growth and resilience in food and farm enterprises; and

WHEREAS, Resolution No. 2008-26 is a joint resolution between the City of Santa Fe (“City”) and Santa Fe County (“County”) that established the Santa Fe City and County Advisory Council on Food Policy (“Council”); and

1 **WHEREAS**, the Council recommends food policies that encourage the direct service of
2 food, refer those living within the City and County to social services,\promote economic
3 development, and improve nutrition and health education; and

4 **WHEREAS**, the purpose of the Council is to coordinate City, County, non-profit
5 organizations, and food and farming businesses in their efforts to promote food security, improve
6 access to retail outlets that offer healthy and affordable food, encourage healthy eating for all
7 residents, reduce obesity and diet-related diseases, and protect the natural resources necessary to
8 produce food; and

9 **WHEREAS**, the Council also supports the work of the State-level council called the “New
10 Mexico Food and Agriculture Policy Council” (“New Mexico Council”); and

11 **WHEREAS**, the New Mexico Council produced the New Mexico Food Charter’s “Report
12 Card for 2023-2024” (“Report Card”) attached as Exhibit A, and the Governing Body supports the
13 Council’s advocacy for the policy goals established in the Report Card; and

14 **WHEREAS**, the Report Card identifies three areas of focus for the New Mexico Council’s
15 policy work:

- 16 1) Nutrition and Food Security;
- 17 2) Environment, Conservation, and Climate;
- 18 3) Government Support and Infrastructure; and

19 **WHEREAS**, food insecurity is an urgent policy need in New Mexico:

- 20 • According to Voices for Healthy Kids, many children consume at least one-half of
21 their daily calories at school and, for many, food served at school is the only meal
22 they eat daily; and
- 23 • According to Northern New Mexico’s food bank, the Food Depot, in Santa Fe
24 County, four thousand two hundred and sixty (4,260) or fifteen-point six percent
25 (15.6%) of the children are food-insecure; and

- The Food Depot states that, in Santa Fe County, fifteen thousand four hundred and twenty (15,420) individuals or ten percent (10%) of the population is food-insecure; and
- According to the non-profit United Health Foundation’s initiative, “America’s Health Rankings”, in New Mexico, seventeen percent (17%) of seniors, who are people over the age of sixty-five (65), fall below the poverty level; and

WHEREAS, the wide variety of agricultural production in the City and County is valuable and includes traditional farming and ranching, greenhouse production, hydroponics, aquaponics, hoop house growing, community gardens, and backyard gardening; and

WHEREAS, New Mexico’s agricultural activity is fundamental to its food system:

- According to a 2022 United States Department of Agriculture report on New Mexico agriculture statistics, the dollar value of New Mexico’s gross receipts sales from crop and livestock production was \$3.71 billion, which is seventeen percent (17%) above its 2021 gross receipts sales for crop and livestock production; and
- A 2024 article from the New Mexico Department of Agriculture, “Annual Food and Agriculture Industry Study Highlights Critical Role of Food and Ag Sectors in Bolstering the U.S. Economy”, stated that the total food and agricultural industry’s economic impact in 2024 for the State of New Mexico was \$43.21 billion; and

WHEREAS, in addition to the above, soil and water conservation, acequias, and agricultural workforce programs are critical to the environmental and economic sustainability of New Mexico farmers and ranchers; and

WHEREAS, the programs and agencies listed below provide resources to food-insecure and marginalized individuals, as well as families, children, seniors, farmers and ranchers, and tribal

1 communities:

- 2 • the New Mexico Department of Agriculture, New Mexico Economic Development
3 Department, New Mexico State University, Soil and Water Conservation District, Aging
4 and Long-Term Services Department, New Mexico Public Education Department, New
5 Mexico Early Childcare and Education Department, and the Office of the State Engineer
6 (“State Agencies Impacting New Mexico Food Production and Distribution”); and
- 7 • the Healthy Universal School Meals program, New Mexico Grown program, the New
8 Mexico Senior Farmers Market Nutrition Program, and the Special Supplemental Nutrition
9 Program for Women, Infant, and Children (WIC) (“New Mexico Nutrition Programs”).

10 **NOW, THEREFORE, BE IT RESOLVED THAT THE GOVERNING BODY OF**
11 **THE CITY OF SANTA FE** supports the Report Card’s prioritization of 1) Nutrition and Food
12 Security, 2) Environment, Conservation, and Climate, and 3) Government Support, as described in
13 Exhibit A.

14 **BE IT FURTHER RESOLVED** that the Governing Body supports the following food
15 policy initiatives for New Mexico and in Santa Fe:

- 16 1) Support for programs that benefit the long-term economic viability and well-being of
17 individuals, entities, and businesses engaged in New Mexico’s food system.
- 18 2) Advocacy for food and agriculture programs that support food, farm, and hunger
19 initiatives, including, but not limited to

- 20 (a) The Healthy Universal School Meals program;
- 21 (b) The New Mexico Grown program;
- 22 (c) The Farm to Food Bank program;
- 23 (d) The Food is Medicine program, which is a Medicaid Waiver for medically
24 tailored meals and produce prescriptions also known as the Fresh Rx
25 Program;

- 1 (e) A budget increase for the Approved Supplier Program, which is a farmers
2 and ranchers food safety training program;
3 (f) WIC and the Senior Farmers' Market Nutrition Program; and
4 (g) Water initiatives and farmer programs.

5 3) Advocacy for long-term, recurring, and consistent New Mexico state funding that
6 capitalizes on farm, food, and hunger initiatives and other related programs.

7 4) Support for legislation that prioritizes soil and water conservation, acequias, and
8 agriculture workforce programs.

9 **BE IT FURTHER RESOLVED THAT** the Governing Body supports

10 1) Expansion of state funding for the State Agencies Impacting New Mexico Food
11 Production and Distribution; and

12 2) Advocacy for New Mexico Nutrition Programs.

REPORT CARD 2023-2024

As of August 20, 2024

Nutrition and Food Security

**Environment, Conservation and
Climate Change**

**Government Support and
Infrastructure**

What is the New Mexico Food & Agriculture Policy Council?

The New Mexico Food & Agriculture Policy Council, (the Policy Council) a program of Farm to Table New Mexico, is composed of groups and individuals impacted by food and agriculture systems. The mission of the Policy Council is to advocate for food systems that strengthen the food and farm economies in New Mexico, and encourage and advance keeping food grown, raised, and processed

in New Mexico, through support, education, and policy. The aim of its work is to enhance the health and wellness of people and communities, and to sustain natural resources. The Policy Council is the oldest continually operating food policy council in the country. For more information about the Policy Council visit our website at www.nmfoodpolicy.org/new-mexico-food-charter.

What is the NMFAPC New Mexico Food Charter?

The New Mexico Food Charter is a document that outlines the shared values, goals, and priorities of the New Mexico Food & Agriculture Policy Council to guide its policy work over the next three to five years. It provides a practice-based approach to address food security in

an ever-changing climate, by investing in local production and consumption of food, with an emphasis on equitable and sustainable practices. You can access the New Mexico Food Charter at www.nmfoodpolicy.org/new-mexico-food-charter.

How Can We Use the New Mexico Food Charter?

The New Mexico Food Charter is designed to:

- **Set Priorities** to improve food security and access to nutritious food, promote practices to mitigate the impacts of climate change, and improve the food infrastructure through government support.
- **Guide Decision-Making** within the Policy Council, helping members align their actions with the shared values, priorities and goals outlined in the charter.
- **Advocate and Educate** policymakers, community members, and others about the importance of food-related issues, the Policy Council's policy priorities, and expected outcomes.
- **Build Partnerships** with governments, organizations and others that share similar values and goals, and strengthen our collective impact.
- **Monitor and Evaluate Progress** to hold government agencies, policymakers, and others accountable for the intended and unintended impacts of policy decisions and programs.

Report Card Purpose

The Policy Council aims to address food security in an ever-changing climate, by investing in local production and consumption of food, with an emphasis on equitable and sustainable practices. Its approach includes:

3 Priorities: 1) Nutrition and Food Security; 2) Environment, Conservation and Climate; and 3) Government Support and Infrastructure.

4 Strategies: state legislation, federal legislation, policy administration and rules & regulations

18 outcomes are monitored through 60 measurable indicators to assess the Policy Council's progress in improving the food system within its three policy priorities.

The Food Charter Report Card shows the results and impact of this work. The Report Card will be updated periodically to show how the impact measures change over time. The version date is at the bottom of each page.

Understanding Food Systems

Policy decisions influence our food systems, which affect the health of people, soil, plants, animals, the environment, and local economies. Food system disruptions during increasingly frequent and severe extreme events because of climate change will disproportionately affect food accessibility, nutrition, and health of some groups, including women, children, older adults, and low-income communities. Policymakers, governments, consumers, food producers, health advocates, and others must work together across sectors to create practices and

policies that make our food systems healthy, sustainable, equitable, and economically sound in an ever-changing climate.

“The Policy Council aims to address food security in an ever-changing climate, by investing in local production and consumption of food, with an emphasis on equitable and sustainable practices.”

Photo: courtesy: Donne Gonzales

Our Priorities

With input from over 50 members and partners, the Policy Council identified three policy areas that significantly influence New Mexico's food systems. These three areas are the focus of our policy work as outlined in the New Mexico Food Charter.

◆ Nutrition and Food Security

Enhancing access to nutritious food and food security for populations throughout New Mexico, especially children, older adults and those who are food insecure.

◆ Environment, Conservation and Climate

Air, water, soil, climate, pollinators and various other environmental factors significantly impact food production, food nutrition, and the economic well-being of food producers. If the land is not healthy and productive, the livelihoods of food producers are at risk. Growing food in an environment where access to clean water is threatened and the impact of the climate crisis is increasing requires implementing conservation and restorative practices.

◆ Government Support and Infrastructure

Government plays a pivotal and multifaceted role in shaping a sustainable, equitable food system that meets the population's food and nutrition needs while minimizing adverse social and environmental impacts. Public policies and programs determine the funding and other resources available, who may benefit from those resources, and which aspects of the food system are deemed worthy of investment.

NM Food & Farms Day, Photo Gabriella Marks

Nutrition and Food Security

Legislation and Budget Priorities We Supported That Passed

The **Food Initiative** is a multi-agency commitment to foster a food system that addresses hunger while simultaneously investing in economic resiliency for farmers, ranchers, and food businesses in New Mexico. Since state fiscal year 2022, budget and legislative wins secured through the initiative have resulted in the largest investment increase in food and agriculture in the state's history. Some of the core programs included in the Food Initiative include:

- New Mexico Grown for schools, preschools and senior centers (Summer EBT, 200% FPL increase, and Restaurant Program)
- Healthy Universal School Meals
- Kids Kitchen
- Double Up Food Bucks
- State SNAP Supplement for Seniors and Individuals w/ Disabilities
- SNAP expansion and enhancements
- Food is Medicine Medicaid-funded interventions
- Healthy Food Financing Fund
- Community Food Assistance
- Approved Supplier Program

School Kitchen Capital Improvement received \$20 million in Capital Funding beginning in FY24, with spending authorized for 5 years.

Legislation and Budget Priorities We Supported that Did Not Pass or Was Not Funded

Fresh Fruits & Vegetables Rx Program was not funded in FY25, a loss of \$500,000. The Fruit & Vegetable Prescription Program (FVRx) connected patients who suffer from diet-related illnesses such as obesity, diabetes, and hypertension with “prescriptions” or incentives used to purchase fresh fruits and vegetables at their local farmers’ markets. However, Medicaid

funded programs including Medically Tailored Meals & Produce Prescription for mothers with gestational diabetes and homebound seniors, will go live in FY25.

Senior Farmers Market Nutrition Program, including staff, saw a loss of \$244,030 from FY24.

Rulemaking

The New Mexico Public Education Department released its proposed rule, **Healthy Universal School Meals (6.12.16 NMAC)**. The Policy Council developed a position statement on the rules emphasizing the economic and nutritional

benefits of purchasing NM Grown food. The statement was signed by 80 organizations and presented at the May 29, 2024 hearing. As of July 2024, the final rule is pending.

Nutrition and Food Security

Outcomes

Our goals for this priority are to increase access to nutrient-rich local food; education and awareness so youth and families can make better food purchasing and consumption

choices; access to foods that are not heavily processed foods; and enrollment in and access to programs with a nutrition focus; and to build strong and resilient emergency food systems.

Healthy Universal School Meals

The enactment of Healthy Universal School Meals will begin in July 2024. The numbers below report School Breakfast and National School Lunch Program data.

FY 23 586,695,417 meals provided

FY 24 388,267,704 (July – May only)

Value of NM Grown Food Purchased

NM Grown Programs, Value of Local Goods Distributed	FY23	FY24 (to May)	Total
All Food Initiative Programs	\$5,305,503	\$3,576,948	\$8,882,451
NM Grown for Preschools	\$135,619	\$75,295	
NM Grown for Schools	\$1,891,738	\$630,477	
NM Grown for Seniors	\$592,228	\$684,996	
All Other FI Programs	\$2,685,917	\$2,186,179

Nutrition and Food Security Outcomes

Food Producer Participation in NM Food Initiative

In FY24, 1,032 farms, ranches, co-ops, processing facilities and other agricultural businesses located throughout New Mexico helped to provide local produce to the New Mexico Food Initiative programs, valued at \$3,576,948 (July 2023 - May 2024). These

“farm to market” sales contributed to 10.8% of the total crop and livestock sales of \$3.71 billion in NM in 2022, up 17% from 2021 as reported by the NM Department of Agriculture, July 2024.

Healthy Food Financing Funding¹

Community Food Assistance Funding¹

NM Regional Farm to Food Bank (RF2FB) Program

RF2FB connects local producers with New Mexico food banks and their partner agencies by paying competitive fair market prices for local products and increasing economic opportunities for New Mexico's small to mid-sized socially disadvantaged producers. This

program received one-time federal funding in the amount of \$4,094,608 for May 2023 to June 2025. The Policy Council would like to see this program continue in the future.

1. Note that these figures do not include other funding that support Food Initiative programs, such as GRO/Junior allocations, interagency transfers, agency base budgets, and federal funds. You can find the full allocation per program in the Self-Reported Funding on the Food Initiative Dashboard at: www.nmdfa.state.nm.us/dfa-dashboards/food-initiative-dashboard

New Mexico Food Initiative - FY2025 FUNDING ^{2, 3}

The total appropriations for the Food Initiative in the general spending bill (HB2) for FY25 was \$93,311,880 for 20 programs, an increase of \$16,589,865 or 122% over FY24. Figure 1 shows the annual change in state general funds from FY22 to FY25. ⁴

4. Note that these figures do not include other funding that support Food Initiative programs, such as GRO/Junior allocations, interagency transfers, agency base budgets, and federal funds. You can find the full allocation per program in the Self-Reported Funding on the Food Initiative Dashboard at: www.nmdfa.state.nm.us/dfa-dashboards/food-initiative-dashboard

Environment, Conservation and Climate

Legislation and Budget Priorities We Supported that Passed

Land of Enchantment Legacy Fund (SB9) appropriated \$400 million into two funds: \$50 million for an expendable fund and \$350 million into a permanent fund. \$12.5 million will be distributed to eight existing state programs beginning in FY2024 and continuing until FY2028. The \$350 million in the permanent fund will generate interest over time which will be distributed annually through the expendable fund once it accrues sufficient interest.

Pollinator Protection Plan Work Group (HM33) requests the NM Department of Agriculture (NMDA) to convene a work group with representatives of NMDA, the New Mexico Food & Agriculture Policy Council, and the New Mexico Beekeepers Association, among others, to consider a plan to protect and increase pollinators in New Mexico.

Legislation and Budget Priorities We Supported that Did Not Pass or Was Not Funded

Composting Initiative (SB79) to develop a statewide set of composting recommendations. The bill did not get any funding yet received support for its future.

Much appreciation to the **NM Healthy Soil Working Group** for starting this discussion and setting the stage for the future. In fiscal year 2025, NMDA is contracting a statewide study on compost production and use through Healthy Soil Program funds.

Acequia & Community Ditch Fund (SB266) An increase of \$350,000 to the Acequia and Community Ditch Fund was requested, for a total of \$1.5 million, to expand the number of grants to acequias and community ditch associations. FY25 appropriations were kept at the previous funding level of \$800,000. Investments in New Mexico's water infrastructure can help to bring more local food to New Mexicans.

Rulemaking

Produced Water. On May 14, 2024 New Mexico's Water Quality Control Commission began a hearing to consider a rule proposed by the New Mexico Environment Department (NMED) to prohibit the discharge of produced water to ground and surface water. The

hearing will resume August 5-9, 2024. The Policy Council is evaluating NMED's proposal to prohibit the discharge of produced water, whether treated or not, to New Mexico's surface and groundwaters and the allowance of produced water for industrial reuse.

Environment, Conservation and Climate

NMFAPC's Water Statement

The Policy Council believes that planning for all water use in New Mexico now and in the future must prioritize providing adequate clean water for local food production by New Mexico farmers, cultivators, and growers. By doing so, these producers are economically

and environmentally resilient and can continue providing healthy foods. Consequently, the Policy Council adopted a water statement in May 2024. View the full statement at: www.nmfoodpolicy.org/water-policy-statement.

Outcomes

Our goals for this priority are to protect agricultural land and small farms, increase restorative practices and the use of resilient crops, increase water quality and quantity

for food production, increase New Mexico's pollinators, more seed preservation, and protect growers impacted by climate change.

Total Number of Farm Acreage in New Mexico

NM Farms in New Mexico

NM Farms Under 10 Acres

The average farm size in New Mexico is 1865 acres, however 33% of farms are less than nine acres. Ninety-five percent of all NM farms

and ranches are family owned. Source: [NM Department of Agriculture Report, July 2024](#).

Environment, Conservation and Climate

NMDA Agricultural Workforce Development Program

NMDA's AWD is an agri-busienss internship program that provides incentives to New Mexico agriculture businesses including

farmers, ranchers, value-added producers, processing and other agriculture-related businesses to hire interns.

FY 22 \$125,000 14 agriculture businesses 23 interns

FY 23 \$375,000 13 agriculture businesses 22 interns

FY 24 \$125,000 7 agriculture businesses 14 interns

NMDA Healthy Soil Program

FY 21 \$237,000 with 26 awards

FY 22 \$185,000 with 17 awards

FY 23 \$1,092,00 with 50 awards

FY 24 \$754,000 with 46 awards

Figure 4: Details for NMDA's Healthy Soil Program 2020-2024

Fiscal Year	Grant Applications for On-the Ground Projects		Approximate Dollars (in thosands)	
	Received	Selected	Requested	Awarded
2020 (pilot)	84	19	\$1,370.0	\$178.0
2021	49	26	\$513.0	\$237.0
2022	49	17	\$404.0	\$185.0
2023	77	50	\$1,405.5	\$1,092.8
2024	67	46	\$1283.0	\$754.8

Government Support and Infrastructure

Legislation and Budget Priorities We Supported that Passed

County and Tribal Health Councils (HB67 and HB2) allocated one-time funding at \$3 million for FY25, a 450% increase over FY24. County and Tribal Health Councils support community food and nutrition programs and local efforts to mitigate climate change.

New Mexico Meat Inspection Act (SB 37 and HB162) authorizes the creation of a state

meat inspection program to ensure the safety and quality of meat for human consumption in New Mexico that meets or exceeds the Federal Meat Inspection Act, the federal Poultry Products Inspection Act and the federal Humane Methods of Slaughter Act of 1978. Investments across the food value chain can bring New Mexicans more sustainable, healthy, and affordable food.

Legislation and Budget Priorities We Supported that Did Not Pass or Was Not Funded

Public Banking Act (SB110) will enable NM to create a state public bank, which is operated by professional bankers and work in partnership with community banks, credit unions, and Community Development

Financial Institutions to make affordable loans available to local farmers, ranchers and food value chain businesses. Although this bill died in committee, it gained more momentum and supporters this session.

Outcomes

Our goals for this priority are to expand the infrastructure for NM Grown food by increasing state, federal and tribal resources to New

Mexican growers who have been historically discriminated against.

The Federal Farm Bill

The Policy Council's Federal Policy Committee has worked diligently over the past year to help shape the next Farm Bill and inform

our congressional delegation of areas most important to New Mexicans.

Take Action!

Here are some things you can do to address food security and improve food systems in New Mexico:

Become a member of the NM Food Policy Council www.nmfoodpolicy.org/membership

Talk to your elected officials and legislators

about the importance of New Mexico's food system and the New Mexico Food Initiative

Sign on to letters of support sponsored by the Policy Council.

Provide public comment at hearings or committees regarding proposed rule changes.

For more information about our policy work visit us at the New Mexico Food & Agriculture Policy Council's website: www.nmfoodpolicy.org

PLEASE SUPPORT

NM Food & Agriculture Policy Council and partners' priorities as of July 18, 2024

Provide full funding to meet the increasing demands of initiatives which:

- Promote nutrient-rich food, especially for children, youth, seniors, individuals with disabilities, low-income populations and for food banks and food pantries
- Improve access to nutritious and culturally significant, New Mexico grown food
- Expand New Mexico farmers' and ranchers' opportunities through the New Mexico Grown Programs to benefit the well-being of our communities and local economy.
- Enrich the soil and water to grow food
- Allow farmers and ranchers to mitigate the impact of extreme climate
- Healthy Universal School Meals Act: nutrition and programmatic support
- **New Mexico Grown Programs:**
 - Early Child Care meal programs (ECECD)
 - Senior Center meal programs (ALTSD)
 - K-12 meal programs (PED)
- Produce Prescription Program / Fresh Rx
- Double Up Food Bucks - SNAP Program (NMDA); continued recurring
- Healthy Food Financing Fund (EDD)
- Senior and WIC Farmers Market Nutrition Programs (DOH)
- Regional Food Purchasing Assistance Program (Regional Farm to Food Bank)
- Water priorities that align with NMFAPC's Water Policy Statement www.nmfoodpolicy.org/water-policy-statement
- A State Pollinator Plan – based on Pollinator Work Group recommendations
- Continue support for New Mexico soil health, conservation, and agriculture workforce programs (NMDA).

Note that we will have more explicit information over the coming months as we work together with support organizations, agencies, New Mexico legislators, and the Office of the Governor on these priority initiatives.
