### ITEM AND ISSUE

Award of Bid #14/33/B for Liquid Sodium Permanganate

### BACKGROUND AND SUMMARY

On May 15, 2014 the City of Santa Fe Purchasing Office and the Water Division opened bids for Liquid Sodium Permanganate for FY 2014/15. The bid will allow the Water Division to purchase the chemical on a cost per pound and will be utilized for the production of treated water at the Water Treatment Facility. The bidders are as follows:

Bidder	Amount
Carus Corporation, Peru, IL	\$39,480.00
F2 Industries LLC, Smyrna, TN	\$38,640.00

F2 Industries LLC, Smyrna, TN awarded the bid for this chemical.

Partial funding in the amount of \$11,000.00 is available in business unit/line item 52361.530200 (Operating Supplies) for FY 2014/15. Partial funding is recommended for the Canyon Road Water Treatment Plant due to extremely low reservoir capacity and full allocation is not possible. Also, the dam intake rehabilitation project will start August 2014 through May 2015 which will limit the production at the Canyon Road Water Treatment Plant as well.

### ACTION REQUESTED

- Award of Bid #14/33/B for Liquid Sodium Permanganate to F2 Industries in the amount of \$38,640.00 with option to purchase additional quantities as required.
- Forwarding and recommendation of approval of Bid to the Governing Body for their final approval.
