**Re:** Proposal to Amend Bill No. 2014-35

---

## **ITEM AND ISSUE:**

The proposed new bill amends Bill No. 2014-35 to establish that all parking violations are civil parking violations subject to an administrative adjudication and collections process which will utilize an outside administrative and collections' agency.

## **BACKGROUND AND SUMMARY:**

On November 12, 2014, the Governing Body approved Bill No. 2014-35 which decriminalized parking violations related to parking meters, city parking lots and city parking garages and deemed those violations subject to administrative adjudication and collections from a collections agency. With the adoption of Bill No. 2014-35, a few parking violations were decriminalized and are subject to adjudication by a Hearing Officer. However, the rest of the parking violations remained as criminal citations which can presently only be adjudicated by the city's Municipal Court.

In conjunction, approval was given to establish a new section within the Parking Division titled the Parking Violations Bureau (PVB) whose staff would be charged with the collection, adjudication, and reconciliation of all parking violations. The approved increase to division staffing was as follows:

- One (1) full-time non-union supervisory position - \$90,500 per year
- One (1) full-time Account Technician - \$35,245 per year
- One (1) part-time Account Technician (Cashier, no benefits) - \$25,000
- One (1) full-time Clerk Typist (no benefits) - \$23,500
- One (1) reclassification of an existing Database Specialist position, annual fiscal impact - \$8,500

Bill No. 2014-35 approved an increase of \$182,745.00 in annual personnel costs. Additionally, a projected annual expense amount of \$39,000.00 was approved for a contracted Hearing Officer.

Upon further review of Bill No. 2014-35 and after consultations with the Municipal Court Judge and City Attorney's Office, Parking staff has established that Bill No. 2014-35 and the approved PVB should be modified in City's best interests as follows:

1. Decriminalize all parking violation citations
2. Set up a two (2) step appeal process:
  - a) First Appeal – This will be referred to as the Administrative Review and the review shall be conducted by PVB staff.
  - b) Second Appeal – This will be referred to as the Administrative Hearing and the Hearing shall be conducted by an independent and certified Hearing Officer contracted by the City. If the Hearing Officer denies the appeal, the appellant may file an appeal in the first judicial district court, county of Santa Fe, under Rule 1-074 NMRA.
3. Unpaid citations will be turned over to an outside administrative and collections agency.
4. The previously approved PVB staffing plan will be modified to eliminate the five (5) new positions and in their place create one (1) Accountant position at an estimated annual personnel cost of \$67,083.00. This reorganization of the original PVB staffing plan will create an annual salary savings of approximately \$115,662.00.
5. An RFP will be issued for a new Citation Adjudication and Revenue Reconciliation System (CARRS). The primary functions of the CARRS is processing of all citations issued either from handheld units or manually; enabling web payments ; MVD interface processing; collection of fines and fees (Cashiering System); tracking of Administrative Reviews and Hearings; processing of all parking permits and offering on-line permit renewals, tracking of all Collections' activities and providing customer service support. In addition to these primary applications, PVB intends to automate several other applications that are discussed below. The CARRS shall be fully PCI compliant during the entire term of the contract.

The CARRS provider shall provide all hardware, software, equipment and services needed to provide the following features, functionality and services:

- a) Ability to record new citations issued, including identification of the issuing agency;
- b) Ability for the PVB and the public to make online, real-time citation inquiries;
- c) Ability to interface online and in real time with New Mexico MVD;

- d) Cashiering/Payment Processing/Noticing/Refund and Audit functions;
- e) Administrative Review and Hearings Modules for contested citations, including electronic imaging of Administrative Review and Hearing requests;
- f) General Citation data storage and management, along with flexible reporting options;
- g) Residential Parking Permit Issuance and Management System;
- h) Parking Meter Maintenance System;
- i) Booted and Towed vehicle noticing system;
- j) Fleet and government vehicle citation processing;
- k) Data entry services for handwritten citation records;
- l) Check and Credit card payment processing;
- m) Printing and distribution of notices;
- n) Training for PVB staff;
- o) Maintenance support services for equipment, hardware and software.

**RECOMMENDED ACTION:**

Staff is recommending approval of amendment to Bill No. 2014-35, elimination of the original PVB staffing plan; creating of an Accountant position; contracting the Hearing Officer position and the release of a Request for Proposals for a Citation Adjudication and Revenue Reconciliation System (CARRS).

### Section D.      General Narrative

**1. Conflicts:** Does this proposed bill/resolution duplicate/conflict with/companion to/relate to any City code, approved ordinance or resolution, other adopted policies or proposed legislation? Include details of city adopted laws/ordinance/resolutions and dates. Summarize the relationships, conflicts or overlaps.

This proposed bill relates to Bill No. 2014-35 which was approved on December 10, 2014 that repealed and readopted Article IX of the Uniform Traffic Ordinance.

---

### **2. Consequences of Not Enacting This Bill/Resolution:**

Are there consequences of not enacting this bill/resolution? If so, describe.

Yes, the current adjudication process for a simple parking violation is very cumbersome and inconvenient for the citizen to appeal the citation. Furthermore, citizens end up not paying their citations after the Court decision as a consequence of the City not having a strict and reliable collections' program in place. This current inability of the City to collect unpaid fine amounts is costing the City hundreds of thousands of dollars each year in uncollected parking fines.

---

### **3. Technical Issues:**

Are there incorrect citations of law, drafting errors or other problems? Are there any amendments that should be considered? Are there any other alternatives which should be considered? If so, describe.

None.

---

### **4. Community Impact:**

Briefly describe the major positive or negative effects the Bill/Resolution might have on the community including, but not limited to, businesses, neighborhoods, families, children and youth, social service providers and other institutions such as schools, churches, etc.

The positive effects of this bill are that we will have an opportunity, through a hearing officer, to hold hearings more frequently which will result in increased customer service and expedient adjudication of violations. We will also have an opportunity to contract with an administrative and collection agency that specializes in providing oversight, adjudication and collection of parking violations. Furthermore, with the proposed personnel changes, we will have the appropriate staffing levels and separation of duties amongst the staff, to adequately and effectively oversee the performance of the contracted services while implementing and enforcing audit controls. We are expecting our overall collection rate which currently is less than 50% to increase to more than 75%.
