**Notes:** Frenchy's Dairy Farm occupied what is now city-owned land called Frenchy's Field. Bernard "Frenchy" Parachou operated the Sunshine Dairy here for 50 years (1932 - 1983). The cinder block building was Frenchy's home, built by him and his friends in the early 1950s. The red-roofed community center is made of wood from Frenchy's barn. Frenchy's Field Park was established in 1995 and today, the park is a passive recreation area landscaped with native wildflowers that links to the Santa Fe River and the city's open space network of trails and parks.
