

1 of every motor vehicle shall be so equipped and adjusted as to prevent the escape of excessive
2 fumes or smoke.

3 C. Every registered gasoline-fueled motor vehicle manufactured or assembled,
4 commencing with the 1968 models, shall at all times be equipped and maintained in good working
5 order with the factory-installed devices and equipment or their replacements designed to prevent,
6 reduce, or control exhaust emissions or air pollution. Such devices or equipment shall not be
7 modified in a manner which will amplify or increase the noise emitted by the motor of such
8 vehicle above that emitted by a muffler of the type originally installed on the vehicle.

9 D. The use of a factory-installed exhaust option is prohibited and violates this
10 ordinance if the noise emitted exceeds the decibel level reading described in Section 10.2-9.

11 E. Muffler changes or modification. No person shall sell, offer for sale, install or offer
12 to install, modify or change the exhaust muffler, intake muffler, or any other noise abatement device
13 of a motor vehicle in a way that increases or tends to increase the exhaust fumes, smoke, or noise
14 from a motor vehicle. Such prohibited changes or modifications shall include, but not be limited to
15 cut-outs, by-passes, and straight-through mufflers that do not contain baffles (including but not
16 limited to glass packs, steel packs, and straight pipes).

17 F. For a first offense under paragraphs A, B, or C above, a person shall not be
18 convicted if repairs are affected on the motor vehicle and the vehicle passes a compliance test
19 within ninety (90) days of the citation being issued.

20 G. The city manager or the city manager's designee shall prescribe the compliance
21 test based on the decibel levels identified as excessive in Section 10.2-9. A person cited under this
22 section may rely on measured decibel levels from the compliance test as an affirmative defense in
23 challenging a citation.
